**Paint Reuse
Network**

Support communities & the environment.

Each year, excessive loads of pristine paint are exported for incineration unnecessarily. In 2016 Ireland exported 2000 tonnes of paint for incineration in Germany. Donating to the Paint Reuse Network supports local jobs and social enterprises, while helping the environment.

An aerial photograph of a coastal town. In the foreground on the left is a tall lighthouse with alternating red and white horizontal bands. The town below features a mix of residential houses and larger apartment-style buildings, interspersed with green grass and some trees. A road with a 'STOP' sign is visible in the lower center. The background shows a wide expanse of water under a clear blue sky with a few wispy clouds.
